

# CAI, Li

## Education

- 2001 **B.A.**, *Business Communication (International Finance Minor)*, Nanjing University.
- 2003 **M.A.**, *Journalism and Communication*, The Ohio State University.
- 2006 **M.S.**, *Mathematical Statistics*, University of North Carolina.
- 2008 **Ph.D.**, *Quantitative Psychology*, University of North Carolina.

## Professional History

- 2008–2011 **Assistant Professor**, *Advanced Quantitative Methodology*.  
Graduate School of Education and Information Studies, UCLA
- 2009–2011 **Assistant Professor**, *Quantitative Psychology*, Joint Appointment.  
Department of Psychology, UCLA
- 2011–2014 **Associate Professor**, *Advanced Quantitative Methodology*.  
Graduate School of Education and Information Studies, UCLA
- 2011–2014 **Associate Professor**, *Quantitative Psychology*, Joint Appointment.  
Department of Psychology, UCLA
- 2011– **Faculty Affiliate**, *Center for Health Statistics*.  
University of Chicago
- 2011– **Faculty Affiliate**, *Institute of Educational Measurement and Statistics*.  
Beijing Normal University
- 2012– **Co-Director**, *Center for Research on Evaluation, Standards, and Student Testing*.  
Graduate School of Education and Information Studies, UCLA
- 2014– **Professor**, *Advanced Quantitative Methodology*.  
Graduate School of Education and Information Studies, UCLA
- 2014– **Professor**, *Quantitative Psychology*, Joint Appointment.  
Department of Psychology, UCLA

## Publications on Statistics and Quantitative Methodology

MacCallum, R. C., Browne, M. W., & **Cai, L.** (2006). Testing differences between nested covariance structure models: Power analysis and null hypotheses. *Psychological Methods*, 11, 19–35.

- Cai, L.** (2006). Multi-response permutation procedure as an alternative to the analysis of variance: An SPSS implementation. *Behavior Research Methods*, *38*, 51–59.
- Maydeu-Olivares, A., & **Cai, L.** (2006). A cautionary note on using  $G^2(\text{dif})$  to assess relative model fit in categorical data analysis. *Multivariate Behavioral Research*, *41*, 55–64.
- Hayes, A. F., & **Cai, L.** (2007). Further evaluating the validity of the conditional decision rule for comparing two independent means. *British Journal of Mathematical and Statistical Psychology*, *60*, 217–244.
- Cai, L.**, & Hayes, A. F. (2008). A new test of linear hypotheses in OLS regression under heteroscedasticity of unknown form. *Journal of Educational and Behavioral Statistics*, *33*, 21–40.
- Hayes, A. F., & **Cai, L.** (2008). Using heteroscedasticity-consistent standard error estimators in OLS regression: An introduction and software implementation. *Behavior Research Methods*, *39*, 709–722.
- Cai, L.** (2008). SEM of another flavour: Two new applications of the supplemented EM algorithm. *British Journal of Mathematical and Statistical Psychology*, *61*, 309–329.
- Bauer, D. J., & **Cai, L.** (2009). Consequences of unmodeled nonlinear effects in multilevel models. *Journal of Educational and Behavioral Statistics*, *34*, 97–114.
- Cai, L.**, & Lee, T. (2009). Covariance structure model fit testing under missing data: An application of the supplemented EM algorithm. *Multivariate Behavioral Research*, *44*, 281–304.
- Maydeu-Olivares, A., **Cai, L.**, & Hernandez, A. (2011). Comparing the fit of IRT and factor analysis models. *Structural Equation Modeling*, *18*, 333–356.
- Cai, L.** (2012). Latent variable modeling. *Shanghai Archives of Psychiatry (Biostatistics in Psychiatry Section)*, *24*, 118-120.
- MacCallum, R. C., Edwards, M. C., & **Cai, L.** (2012). Commentary: Hopes and cautions in implementing Bayesian structural equation modeling. *Psychological Methods*, *17*, 340-345.
- Lee, T., & **Cai, L.** (2012). Alternative multiple imputation inference for mean and covariance structure modeling. *Journal of Educational and Behavioral Statistics*, *37*, 675-702.
- Yang, J. S., & **Cai, L.** (2014). Estimation of contextual effects through nonlinear multilevel latent variable modeling with a Metropolis-Hastings Robbins-Monro algorithm. *Journal of Educational and Behavioral Statistics*, *39*, 550-582.

Monroe, S., & **Cai, L.** (2015). Evaluating structural equation models for categorical outcomes: A new test statistic and a practical challenge of interpretation. *Multivariate Behavioral Research*, *50*, 569-583.

Lee, T., **Cai, L.**, & Kuhfeld, M. (2016). A poor person's posterior predictive checking of structural equation models. *Structural Equation Modeling*, *23*, 206-220.

## Publications on Educational and Psychological Measurement

**Cai, L.**, Maydeu-Olivares, A., Coffman, D. L., & Thissen, D. (2006). Limited-information goodness-of-fit testing of item response theory models for sparse  $2^P$  tables. *British Journal of Mathematical and Statistical Psychology*, *59*, 173–194.

Curran, P. J., Hussong, A. M., **Cai, L.**, Huang, W., Chassin, L., Sher, K. J., & Zucker, R. A. (2008). Pooling data from multiple prospective studies: The role of item response theory in integrative analysis. *Developmental Psychology*, *44*, 365–380.

**Cai, L.** (2010). High-dimensional exploratory item factor analysis by a Metropolis-Hastings Robbins-Monro algorithm. *Psychometrika*, *75*, 33-57.

**Cai, L.** (2010). Metropolis-Hastings Robbins-Monro algorithm for confirmatory item factor analysis. *Journal of Educational and Behavioral Statistics*, *35*, 307–335.

**Cai, L.** (2010). A two-tier full-information item factor analysis model with applications. *Psychometrika*, *75*, 581-612.

Reise, S., Preston, K., **Cai, L.**, & Hays, R. D. (2011). Using the nominal response model to evaluate response category discrimination in the PROMIS emotional distress item pools. *Educational and Psychological Measurement*, *71*, 523–550.

**Cai, L.**, Yang, J. S. & Hansen, M. (2011). Generalized full-information item bifactor analysis. *Psychological Methods*, *16*, 221–248.

Yang, J. S., Hansen, M., & **Cai, L.** (2012). Characterizing sources of uncertainty in IRT scale scores. *Educational and Psychological Measurement*, *72*, 264–290.

**Cai, L.**, & Hansen, M. (2013). Limited-information goodness-of-fit testing of hierarchical item factor models. *British Journal of Mathematical and Statistical Psychology*, *66*, 245–276.

Woods, C. M., **Cai, L.**, & Wang, M. (2013). The Langer-improved Wald test for DIF testing with multiple groups: Evaluation and comparison to two-group IRT. *Educational and Psychological Measurement*, *73*, 532–547.

Tian, W., **Cai, L.**, Thissen, D., & Xin, T. (2013). Numerical differentiation methods for computing error covariance matrices in item response theory modeling: An evaluation and a new proposal. *Educational and Psychological Measurement*, *73*, 412–439.

**Cai, L.** (2013). Potential applications of latent variable modeling for the psychometrics of medical simulation. *Military Medicine*, *178*, 115-120.

**Cai, L.**, & Monroe, S. (2013). Commentary: IRT model fit evaluation from theory to practice: Progress and some unanswered questions. *Measurement: Interdisciplinary Research and Perspective*, *11*, 102–106.

Monroe, S., & **Cai, L.** (2014). Estimation of a Ramsay-curve item response theory model by the Metropolis-Hastings Robbins-Monro algorithm. *Educational and Psychological Measurement*, *74*, 343–369.

Paek, I., & **Cai, L.** (2014). A comparison of item parameter standard error estimation procedures for unidimensional and multidimensional IRT modeling. *Educational and Psychological Measurement*, *74*, 58–76.

Paek, I., Park, H.-P., **Cai, L.**, & Chi, E. L. (2014). A comparison of three IRT approaches to examinee ability change modeling In a single group anchor test design. *Educational and Psychological Measurement*, *74*, 659-676.

**Cai, L.** (2015). Lord-Wingersky algorithm version 2.0 for hierarchical item factor models with applications in test scoring, scale alignment, and model fit testing. *Psychometrika*, *80*, 535–559.

Monroe, S., & **Cai, L.** (2015). Examining the reliability of student growth percentiles using multidimensional IRT. *Educational Measurement: Issues and Practice*, *34*, 21-30.

Falk, C. F., & **Cai, L.** (in press). Maximum marginal likelihood estimation of a monotonic polynomial generalized partial credit model with applications to multiple group analysis. *Psychometrika*.

Falk, C. F., & **Cai, L.** (in press). A flexible full-information approach to the modeling of response styles. *Psychological Methods*.

Falk, C. F., & **Cai, L.** (in press). Semi-parametric item response functions in the context of guessing. *Journal of Educational Measurement*.

**Cai, L.** (in press). Item response theory. *Annual Review of Statistics and Its Application*, Vol. 3.

Hansen, M., **Cai, L.**, Monroe, S., & Li, Z. (resubmitted). Limited-information goodness-of-fit testing of diagnostic classification item response theory models. *British Journal of Mathematical and Statistical Psychology*.

## Computer Software

**Cai, L.**, Thissen, D., & du Toit, S. H. C. (2011). *IRTPRO: Flexible, multidimensional, multiple categorical IRT modeling* [Computer software]. Lincolnwood, IL: Scientific Software International.

**Cai, L.** (2012). *flexMIRT<sup>®</sup> 1.0: Flexible multilevel item factor analysis and test scoring* [Computer software]. Seattle, WA: Vector Psychometric Group, LLC.

**Cai, L.** (2013). *flexMIRT<sup>®</sup> 2.0: Flexible multilevel and multidimensional item response theory analysis and test scoring* [Computer software]. Chapel Hill, NC: Vector Psychometric Group, LLC.

**Cai, L.** (2015). *flexMIRT<sup>®</sup> 3.0: Flexible multilevel and multidimensional item response theory analysis and test scoring* [Computer software]. Chapel Hill, NC: Vector Psychometric Group, LLC.

## Editorial Appointments

- 2011-2014 **Editorial Board Member**, *Communication Methods & Measures*.
- 2011-2014 **Editorial Board Member**, *Journal of Educational & Behavioral Statistics*.
- 2013-2014 **Editorial Board Member**, *Educational Researcher*.
- 2015-2016 **Editorial Board Member**, *International Journal of Testing*.
- 2015-2016 **Editorial Board Member**, *KEDI Journal of Educational Policy*.
- 2012-2014 **Associate Editor**, *Multivariate Behavioral Research*.
- 2013-2014 **Associate Editor**, *American Education Research Journal*.
- 2015-2017 **Co-Editor**, *Journal of Educational & Behavioral Statistics*.

## Funded Research Support

- 2007–2008 **National Science Foundation**, *SES-0717941*.  
Title: *Doctoral Dissertation Research: A Metropolis-Hastings Robbins-Monro Algorithm for Maximum Likelihood Confirmatory Item Factor Analysis*  
Co-PI (MacCallum, PI, UNC-Chapel Hill; \$7,000 total award)
- 2010-2014 **Institute of Education Sciences**, *R305D100039*.  
Title: *Nonlinear Multilevel Latent Variable Modeling with a Metropolis-Hastings Robbins-Monro Algorithm*  
PI (\$994,000 total award)

- 2009-2014 **National Institute on Drug Abuse, R01DA026943.**  
 Title: *Development and Evaluation of a Smoking Module for PROMIS*  
 PI of UCLA Sub (Prime: RAND; \$454,248 UCLA subaward)
- 2010-2014 **National Institute on Drug Abuse, R01DA030466.**  
 Title: *Measurement of Recovery from Drug Addiction*  
 PI (\$659,208 total award)
- 2012-2013 **UCLA Office of the Vice Chancellor for Research, Seed Grant.**  
 Title: *Interactive Data Visualization Tools for Evidence-Based Decision Making: Training Health Practitioners in Essential Assessment Skills*  
 PI (\$20,200 total award)
- 2013-2016 **Institute of Education Sciences, S368A120002.**  
 Title: *Enhanced Assessment Grant: The English Language Proficiency Assessment for the 21st Century (ELPA21)*  
 PI of UCLA Sub (Prime: Oregon Department of Education; \$269,997 UCLA subaward)
- 2013-2014 **National Science Foundation, SES-1260746.**  
 Title: *Doctoral Dissertation Research: Hierarchical Item Response Models for Cognitive Diagnosis*  
 PI (Mark Hansen, advisee; \$11,596 total award)
- 2012-2015 **William and Flora Hewlett Foundation, 2012-8075.**  
 Title: *On the Road to Deeper Learning*  
 Co-PI (Joan Herman, PI; \$796,712 total award)
- 2013-2015 **Bill and Melinda Gates Foundation, OPP1088937.**  
 Title: *Toward Next Generation Assessments: Building Tools for Understanding Comparability in a General Validity Framework*  
 Co-PI (Eva Baker, PI; \$942,527 total award)
- 2013-2015 **Smarter Balanced Assessment Consortium, 20141186.**  
 Title: *Mathematical Reasoning Project*  
 PI (\$400,000 total award)
- 2014 **WA State Office of Superintendent of Public Instruction, 20140363.**  
 Title: *Development and Testing of Smarter Balanced Assessment Consortium Test Delivery Certification Package*  
 Co-PI (Eva Baker, PI; \$1,024,668 total award)
- 2014-2016 **Pelagique, LLC., W81XWH.**  
 Title: *Integration of Simulation-Based Measures and Models for Ultrasonography Assessment*  
 PI (\$265,000 total award)
- 2014-2015 **The Roddenberry Foundation, 20150038.**  
 Title: *Evaluation of State-of-the Art Cognitive Skills Training and Curricular Content Games to Making Learning More Engaging and Effective*  
 PI (\$190,000 total award)

- 2014-2017 **Institute of Education Sciences, R305D140046.**  
 Title: *Novel models and methods to address measurement error issues in educational assessment and evaluation studies*  
 PI (\$895,108 total award)
- 2014-2015 **Smarter Balanced Assessment Consortium, No Grant or Contract Number.**  
 Title: *Psychometric and Validity Studies*  
 Project Director (\$2,435,192 total award)

## Awards and Honors

- 1998, 1999 **University Scholarship, Nanjing University.**
- 1999 **Best Non-Native English Speaker, The English-Speaking Union, International English Public Speaking Competition, London, Britain.**
- 1999 **First Prize, China Daily, National College English Public Speaking Competition.**
- 1999 **University President's Special Scholarship, Nanjing University.**
- 2000 **Guang-Hua Scholarship, Nanjing University.**
- 2001 **Graduate with Distinction, Nanjing University.**
- 2003 **Elected to Kappa Tau Alpha, National Honor Society of Journalism & Mass Communication.**
- 2003 **Research Award, Kappa Tau Alpha, National Honor Society of Journalism & Mass Communication.**
- 2003 **Chaffee-McLeod Award, Association for Education in Journalism & Mass Communication, Communication Theory & Methodology Division.**  
 Best student paper in the open paper competition
- 2006 **Lyle V. Jones Award, L. L. Thurstone Psychometric Laboratory.**  
 Annual award to one graduate student for outstanding scholarship and citizenship in the Thurstone Psychometric Laboratory at UNC-Chapel Hill
- 2007-2008 **Gulliksen Psychometric Research Fellowship, Educational Testing Service.**  
 A competitive year-long research fellowship awarded by the ETS
- 2008 **Dean's Distinguished Dissertation Award, University of North Carolina.**  
 For best dissertation research in social, behavioral, and economic sciences
- 2009 **AERA Outstanding Quantitative Dissertation Award, American Educational Research Association.**  
 For best dissertation in educational measurement and methodology
- 2009 **NCME Brenda H. Loyd Outstanding Dissertation Award, National Council on Measurement in Education.**  
 The award honors an outstanding dissertation in educational measurement.
- 2010 **Outstanding Reviewer Award, American Educational Research Association.**  
 For outstanding service to *Journal of Educational and Behavioral Statistics*
- 2011 **Anne Anastasi Early Career Award, American Psychological Association.**  
 For outstanding contributions and promise of continued work of outstanding quality to Division 5 areas (Evaluation, Measurement, and Statistics).

- 2011 **Elected Member**, *Society of Multivariate Experimental Psychology*.  
The Society of Multivariate Experimental Psychology was founded in 1960 as a small and elective organization of researchers interested in multivariate quantitative methods and their application to substantive problems in psychology. Membership is limited to 65 regular active members.
- 2012 **Presidential Early Career Award for Scientists and Engineers**.  
For pioneering contributions to measurement and statistical analysis, including the development of the new and transformative Metropolis-Hastings Robbins-Monro algorithm, and for leadership in shaping statistical practice in education, psychology, and health. PECASE is the highest honor bestowed by the US Government on science and engineering professionals in the early stages of their independent research careers.
- 2012 **Cattell Early Career Award**, *Society of Multivariate Experimental Psychology*.  
Named for Raymond B. Cattell, this award is an early-career award given annually by the Society of Multivariate Experimental Psychology to a young researcher who has made outstanding contributions to multivariate experimental psychology and who shows promise of continued work of a very high quality.
- 2013 **Outstanding Reviewer Award**, *American Educational Research Association*.  
For outstanding service to *Journal of Educational and Behavioral Statistics*
- 2015 **Early Career Impact Award**, *Federation of Associations in Behavioral and Brain Sciences*.  
This award is presented to early career scientists of FABBS member societies during the first 10 years post-PhD and recognizes scientists who have made major contributions to the sciences of mind, brain, and behavior.

## Invited Sessions and Workshops

- November 2006 **Cai, L.** A Markov chain Monte Carlo stochastic approximation algorithm for item factor analysis. *Invited Session, Advances in Adaptive Quadrature Meeting, Center for Health Statistics, University of Illinois at Chicago, Chicago, IL.*
- November 2006 **Cai, L.** A Metropolis-Hastings Robbins-Monro algorithm for item factor analysis. *Quantitative psychology colloquium, Department of Psychology, The Ohio State University, Columbus, OH.*
- June 2007 **Cai, L.** A Metropolis-Hastings Robbins-Monro algorithm for maximum likelihood nonlinear latent structure analysis. *Invited Seminar, Research & Development Division, Educational Testing Service, Princeton, NJ.*
- September 2007 **Cai, L.** A Metropolis-Hastings Robbins-Monro algorithm for maximum likelihood nonlinear latent structure analysis. *Quantitative psychology colloquium, Department of Psychology, University of Notre Dame, Notre Dame, IN.*
- May 2008 **Cai, L.** A Metropolis-Hastings Robbins-Monro algorithm for maximum likelihood nonlinear latent structure analysis. *Invited Talk, Annual Convention of the Association for Psychological Science, Chicago, IL.*

- June 2008 **Cai, L.** Full information confirmatory item factor analysis with a Metropolis-Hastings Robbins-Monro algorithm. *Invited Session, The Second Patient Reported Outcomes Measurement Information System (PROMIS) Psychometric Summit, Evanston, IL.*
- July 2008 **Cai, L.** Stochastic approximation for maximum likelihood parameter estimation in nonlinear latent variable models. *Invited Symposium Contribution, 2008 International Meeting of the Psychometric Society, Durham, NH.*
- May 2009 **Cai, L.** Modern psychological measurement: New developments in item response theory. *Chair of Invited Symposium, Annual Convention of the Association for Psychological Science, San Francisco, CA.*
- May 2009 **Cai, L.** Flexible multidimensional, multiple categorical IRT modeling. *Invited Symposium Contribution, Annual Convention of the Association for Psychological Science, San Francisco, CA.*
- July 2009 **Cai, L.** Multidimensional IRT in longitudinal assessment of Patient Reported Outcomes. *Invited Session, Statistical and Applied Mathematical Sciences Institute, Summer Psychometric Program, Durham, NC.*
- September 2009 **Cai, L.** Some recent advances in multidimensional item response theory. *Invited Seminar, CCH/HSRC/EXPORT Methods Seminar, UCLA.*
- January 2010 **Cai, L.** Extended item factor analysis and its applications. *Biostatistics colloquium, Department of Biostatistics, UCLA.*
- Feb 2010 **Cai, L.** Contributions to CRESST conference on the psychometrics of games and simulations. *Invited Talk, National Center for Research on Evaluation, Standards, and Student Testing, UCLA.*
- Feb 2010 **Cai, L.** Introduction to item response theory in drug abuse research. *Invited Seminar, Center for Advancing Longitudinal Drug Abuse Research, UCLA.*
- May 2010 **Cai, L.** Bootstrapping methods for latent variable models. *Invited Symposium Contribution, Annual Convention of the Association for Psychological Science, Boston, MA.*
- July 2010 **Cai, L.** A two-tier full-information item factor analysis model with applications. *Invited State-of-the-Art Talk, 2010 International Meeting of the Psychometric Society, Athens, GA.*
- August 2010 **Cai, L.** Current development in multidimensional item response theory. *Invited Seminar, National Assessment of Educational Quality, Beijing Normal University, China.*
- September 2010 **Cai, L.** Three cheers for the asymptotically distribution free theory of estimation and inference: Some recent applications in latent variable modeling. *Invited Talk, Current Topics in the Theory and Application of Latent Variable Models: A Conference Honoring the Scientific Contributions of Michael W. Browne, Columbus, OH.*

- September 2010 **Cai, L.** Alternative multiple imputation inference for mean and covariance structure modeling. *Invited Seminar, Department of Psychology, University of Kansas.*
- September 2010 **Cai, L.** Longitudinal Item response theory and applications. *Invited Session, The Third Patient Reported Outcomes Measurement Information System (PROMIS) Psychometric Summit, Chicago, IL.*
- Jan 2011 **Cai, L.** A two-tier item factor analysis model with applications. *Invited Seminar, Department of Statistics, Department of Health Studies, and Committee on Education, University of Chicago, Chicago, IL.*
- April 2011 **Cai, L.** The role of item response theory in psychological data analysis. *Invited Seminar, Department of Psychology, Department of Human Development, University of Chicago, Chicago, IL.*
- July 2011 **Cai, L.** Lord-Wingsky algorithm after 25+ Years: Version 2.0 for hierarchical item factor models. *Invited Symposium Contribution, 2011 International Meeting of the Psychometric Society, Hong Kong, China.*
- July 2011 Hansen, M., & **Cai, L.** Limited-information goodness-of-fit testing of hierarchical item factor models. *Invited Symposium Contribution, 2011 International Meeting of the Psychometric Society, Hong Kong, China.*
- July 2011 Lee, M., Hansen, M., & **Cai, L.** Calibration, scaling, DIF, and projection: A common framework using multidimensional IRT. *Invited Symposium Contribution, 2011 International Meeting of the Psychometric Society, Hong Kong, China.*
- July 2011 Yang, J. S., Monroe, S., & **Cai, L.** A multilevel item bifactor model. *Invited Symposium Contribution, 2011 International Meeting of the Psychometric Society, Hong Kong, China.*
- July 2011 **Cai, L.** Multilevel and hierarchically multidimensional latent variable measurement models for item response modeling in large-scale assessments. *Invited Talk, Workshop on Modern Psychometric and Statistical Methods for Large Scale Education Assessments, Center for National Assessment of Education Quality, Beijing Normal University, China.*
- August 2011 Edwards, M. C., & **Cai, L.** A new diagnostic procedure to detect departures from local independence in item response models. *Invited Symposium Contribution, Annual Convention of the American Psychological Association, Washington, DC.*
- August 2011 **Cai, L.** Second-generation, multidimensional, and multilevel item response theory modeling framework. *Invited Award Address, Annual Convention of the American Psychological Association, Washington, DC.*
- April 2012 **Cai, L.** Second-generation, multidimensional, and multilevel item response theory modeling. *Invited Symposium Contribution, Annual Meeting of the National Council on Measurement in Education, Vancouver, Canada.*

- July 2012 **Cai, L.** Multi-level and multidimensional IRT: Theory and software implementation. *Invited Workshop, Center for National Assessment of Education Quality, Beijing Normal University, China.*
- August 2012 **Cai, L.** Item response theory modeling in drug abuse research. *Invited Workshop, Summer Institute of the Center for Advancing Longitudinal Drug Abuse Research (CALDAR), Marina del Rey, CA.*
- April 2013 **Cai, L.** Remembering L. L. Thurstone. *Invited Symposium Contribution, Annual Meeting of the National Council on Measurement in Education, San Francisco, CA.*
- April 2013 **Cai, L.** Hierarchical multidimensional item response models with alternative latent variable distributional assumptions: A discussion and some applications. *Invited Lecture, Quantitative Research Methods in Education, Health, and Social Sciences Workshop, University of Chicago.*
- May 2013 **Cai, L.** Item response theory. *Invited Short Course, Center for National Assessment of Education Quality, Beijing Normal University, China.*
- September 2013 **Cai, L.** Hierarchical multidimensional item response models with alternative latent variable distributional assumptions: A discussion and some applications. *Invited Lecture, Department of Statistics, University of South Carolina, Columbia, SC.*
- October 2013 **Cai, L.** Flexible multidimensional item response theory analysis and model fit evaluation. *Invited Cattell Award Address, 2013 meeting of the Society of Multivariate Experimental Psychology, St. Pete Beach, FL.*
- April 2014 **Cai, L.,** Baker, E., Choi, K. C., & Buschang, R. CRESST functional validity model: Deriving formative and summative information from Common Core assessments. *Contribution to invited session, Annual Meeting of the American Educational Research Association, Philadelphia, PA.*
- April 2014 **Cai, L.,** & Houts, C. flexMIRT®: Flexible multilevel multidimensional item analysis and test scoring. *Pre-conference training workshop, Annual Meeting of the National Council on Measurement in Education, Philadelphia, PA.*
- May 2014 **Cai, L.** Developments in item response theory research. *Invited Short Course, Center for National Assessment of Education Quality, Beijing Normal University, China.*
- July 2014 **Cai, L.,** & Houts, C. flexMIRT®: Flexible multilevel multidimensional item analysis and test scoring. *Pre-conference training workshop, 2014 International Meeting of the Psychometric Society, Madison, WI.*
- September 2014 **Cai, L.** Introduction to flexMIRT®: Flexible multilevel multidimensional item analysis and test scoring. *Invited Workshop, Department of Education, Seoul National University, Republic of Korea.*

- September 2014 **Cai, L.** Using flexMIRT® for multilevel item response and diagnostic classification modeling. *Invited Lecture, Korea Society for Educational Evaluation, Seoul, Republic of Korea.*
- September 2014 **Cai, L.** Flexible hierarchical item factor and diagnostic models for educational assessments. *Invited Lecture, Korea Institute for Curriculum and Evaluation, Seoul, Republic of Korea.*
- October 2014 **Cai, L.** Introduction to flexMIRT®: Flexible multilevel multidimensional item analysis and test scoring. *Invited Workshop, Department of Psychology, University of Southern California, Los Angeles, CA.*
- April 2015 **Cai, L., & Houts, C.** flexMIRT®: Flexible multilevel multidimensional item analysis and test scoring. *Pre-conference training workshop, Annual Meeting of the National Council on Measurement in Education, Chicago, IL.*
- April 2015 **Cai, L.** Developments in factor analysis. *Invited Short Course, Center for National Assessment of Education Quality, Beijing Normal University, China.*
- July 2015 **Cai, L., & Wirth, R.J.** flexMIRT®: Flexible multilevel multidimensional item analysis and test scoring. *Pre-conference training workshop, 2014 International Meeting of the Psychometric Society, Beijing, China.*
- July 2014 **Cai, L.** The utility of multidimensional item response models in educational assessment and evaluation studies. *Invited Address at the 2015 International Meeting of the Psychometric Society, Beijing, China.*
- April 2016 **Cai, L., & Houts, C.** flexMIRT®: Flexible multilevel multidimensional item analysis and test scoring. *Pre-conference training workshop, Annual Meeting of the National Council on Measurement in Education, Washington, DC.*

## Conference Presentations

- November 2002 Eveland, W. P., Eastin, M., Marton, K., Liu, K., & **Cai, L.** Non-response bias, context dependency, social desirability, and response set: An experimental comparison of web vs. telephone surveys. *Paper presented at the 2002 meeting of the Midwest Association for Public Opinion Research, Chicago, IL.*
- October 2002 David, P., Lu, T., & **Cai, L.** Computers as social actors: Testing the fairness of man and machine. *Paper presented at the Fifth Annual International Workshop, Presence 2002, Universidade Fernando Pessoa, Porto, Portugal.*
- May 2003 **Cai, L.,** David, P., Lu, T., Liu, K., Cortese, J., & Seo, M. Testing the boundaries of the Media Equation in a computer game situation: When an evaluation by a human means more than an evaluation by a computer. *Paper presented at the 2003 meeting of the International Communication Association, San Diego, CA.*

- August 2003 **Cai, L.** Assessing co-termination between coders in unitizing textual data: A Multi-response Randomized Blocks Permutation approach. *Paper presented at the 2003 meeting of the Association for Education in Journalism & Mass Communication, Kansas City, MO.* (Top Student Paper).
- May 2004 Eveland, W. P., Seo, M., Cortese, J., **Cai, L.**, Wang, Z., Thomson, T., Seitman, R., & Sipos, I. News use, discussion, and knowledge of local public affairs: An experimental and observational study. *Paper presented at the 2004 meeting of the International Communication Association, New Orleans, LA.*
- June 2004 MacCallum, R. C., Browne, M. W., & **Cai, L.** Testing differences between structural equation models: Power analyses and null hypotheses. *Paper presented at the 2004 International Meeting of the Psychometric Society, Monterey, CA.*
- October 2004 **Cai, L.** Limited information goodness-of-fit testing for latent variable models fitted to sparse  $2^P$  tables. *Paper presented at the 2004 Society of Multivariate Experimental Psychology graduate student pre-conference, Naples, FL.*
- April 2005 Pungello, E. P., Campbell, F. A., Burchinal, M. R., **Cai, L.**, Wasik, B. H., & Ramey, C. T. Early risk and educational intervention predicting to young adult outcomes within a high-risk population. *Paper presented at the 2005 biennial meeting of the Society for Research in Child Development, Atlanta, GA.*
- March 2006 Ennett, S. T., Foshee, V. A., Bauman, K. E., Hussong, A., Faris, R., Hipp, J., & **Cai, L.** The social context of adolescent substance use. *Paper presented at the 2006 biennial meeting of the Society for Research on Adolescence, San Francisco, CA.*
- June 2006 Thissen, D., **Cai, L.**, & Bock, R. D. A new parameterization of the nominal item response model. *Paper presented at the International Meeting of the Psychometric Society, Montréal, Canada.*
- June 2006 **Cai, L.** SEM of another flavor: Two new applications of the supplemented EM algorithm. *Paper presented at the 2006 International Meeting of the Psychometric Society, Montréal, Canada.*
- October 2006 **Cai, L.** Full-information item factor analysis by Markov chain Monte Carlo stochastic approximation. *Paper presented at the 2006 Society of Multivariate Experimental Psychology graduate student pre-conference, Lawrence, KS.*
- February 2007 Curran, P. J., Hussong, A. M., **Cai, L.**, & Huang, W. The integrative analysis of three data sets: Internalizing symptomatology from ages 10 to 33. *Paper presented at the 2007 meeting of the Conference on Emerging Adulthood, Tucson, AZ.*
- July 2008 **Cai, L.**, & Thissen, D. Implementation of a Supplemented EM algorithm to compute the error covariance matrix for ML parameter estimates in item response theory models. *Paper presented at the 2008 International Meeting of the Psychometric Society, Durham, NH.*

- April 2010 Yang, J. S., Hansen, M., & **Cai, L.** Characterizing sources of uncertainty in IRT scale scores. *Paper presented at the 2010 Meeting of the National Council on Measurement in Education, Denver, CO.*
- April 2010 **Cai, L.**, Yang, J. S. & Hansen, M. Generalized full-information item bifactor analysis. *Paper presented at the 2010 Meeting of the National Council on Measurement in Education, Denver, CO.*
- April 2010 **Cai, L.** On the shape of likelihood surface in item factor analysis. *Paper presented at the 2010 Meeting of the American Educational Research Association, Denver, CO.*
- July 2010 Hansen, M., **Cai, L.**, & Yang, J. S. Alternative bifactor model specifications: Estimation, diagnosis, and consequences of model choice. *Paper presented at the 2010 International Meeting of the Psychometric Society, Athens, GA.*
- July 2011 Lee, T., **Cai, L.** A poor person's posterior predictive checking of structural equation models. *Paper presented at the 2011 International Meeting of the Psychometric Society, Hong Kong, China.*
- July 2011 Edwards, M. C., Houts, C. R., **Cai, L.** A new procedure for detecting departures from local independence in item response models. *Paper presented at the 2011 International Meeting of the Psychometric Society, Hong Kong, China.*
- October 2011 Hansen, M., & **Cai, L.** Limited-information goodness-of-fit testing of hierarchical item factor models. *Paper presented at the 2011 Meeting of the Society of Multivariate Experimental Psychology, Norman, OK.*
- April 2012 Yang, J. S., Monroe, S., & **Cai, L.** A multiple group multilevel item bifactor analysis model. *Paper presented at 2012 Meeting of the National Council on Measurement in Education, Vancouver, Canada.*
- April 2012 Hansen, M. & **Cai, L.** The potential of local dependence diagnostics to inform or mislead. *Paper presented at 2012 Meeting of the National Council on Measurement in Education, Vancouver, Canada.*
- April 2012 Lee, T., Hansen, M., Yang, J. S., & **Cai, L.** Variability of estimates in generalizability theory: A simulation based confidence interval for reliability coefficients. *Paper presented at 2012 Meeting of the National Council on Measurement in Education, Vancouver, Canada.*
- July 2012 Monroe, S., & **Cai, L.** Estimation of a Ramsay-Curve IRT model Using the Metropolis-Hastings Robbins-Monro algorithm. *Paper presented at the 2012 International Meeting of the Psychometric Society, Lincoln, NE.*
- July 2012 Woods, C. M., & **Cai, L.** Evaluation of the Langer improved Wald test for DIF testing. *Paper presented at the 2012 International Meeting of the Psychometric Society, Lincoln, NE.*

- July 2012 Li, Z., & **Cai, L.** Summed score based fit indices for testing latent variable distribution assumption in IRT. *Paper presented at the 2012 International Meeting of the Psychometric Society, Lincoln, NE.*
- July 2012 **Cai, L.**, & Woods, C. M. Maximum marginal likelihood item bifactor analysis with estimation of the general dimension as an empirical histogram. *Paper presented at the 2012 International Meeting of the Psychometric Society, Lincoln, NE.*
- July 2012 Yang, J., & **Cai, L.** Estimation of contextual effects through nonlinear multilevel latent variable modeling with a Metropolis-Hastings Robbins-Monro algorithm. *Paper presented at the 2012 International Meeting of the Psychometric Society, Lincoln, NE.*
- July 2012 Hansen, M., & **Cai, L.** When local independence diagnostics mislead. *Paper presented at the 2012 International Meeting of the Psychometric Society, Lincoln, NE.*
- July 2012 Lee, T., & **Cai, L.** A note On a Tucker-Lewis index For item response theory modeling. *Paper presented at the 2012 International Meeting of the Psychometric Society, Lincoln, NE.*
- April 2013 Yang, J., & **Cai, L.** Estimation of contextual effects through nonlinear multilevel latent variable modeling with a Metropolis-Hastings Robbins-Monro algorithm. *Paper presented at the 2013 Meeting of the National Council on Measurement in Education, San Francisco, CA.*
- July 2013 Hansen, M., & **Cai, L.** A hierarchical item response model for cognitive diagnosis. *Paper presented at the 2013 International Meeting of the Psychometric Society, Arnhem, the Netherlands.*
- July 2013 Kuhfeld, M., & **Cai, L.** The user of Jeffreys prior in IRT estimation of latent traits. *Paper presented at the 2013 International Meeting of the Psychometric Society, Arnhem, the Netherlands.*
- July 2013 Li, Z., Yang, J. S., & **Cai, L.** Item response growth modeling: A new application of multilevel factor model for longitudinal item response data. *Paper presented at the 2013 International Meeting of the Psychometric Society, Arnhem, the Netherlands.*
- July 2013 Monroe, S. & **Cai, L.** Limited information goodness-of-fit testing for structural models of categorical data. *Paper presented at the 2013 International Meeting of the Psychometric Society, Arnhem, the Netherlands.*
- July 2013 Falk, C. F. & **Cai, L.** A logistic function of a monotonic polynomial for estimating item response functions. *Paper presented at the 2013 International Meeting of the Psychometric Society, Arnhem, the Netherlands.*
- July 2013 Yang, J. S. & **Cai, L.** Estimation of cross-level interactions in a three-level nonlinear latent variable model with a Metropolis-Hastings Robbins-Monro algorithm. *Paper presented at the 2013 International Meeting of the Psychometric Society, Arnhem, the Netherlands.*

- August 2013 **Cai, L.** Item response theory analysis in the case of complex survey data. *Paper presented at the 59th World Statistics Congress, Hong Kong, China.*
- April 2014 Yang, J. S. & **Cai, L.** Estimation of a three-level latent variable model With Metropolis-Hastings Robbins-Monro algorithm. *Paper presented at the 2012 Meeting of the National Council on Measurement in Education, Philadelphia, PA.*
- April 2014 Hansen, M. & **Cai, L.** Detecting and characterizing misspecification of cognitive diagnostic models. *Paper presented at the 2012 Meeting of the National Council on Measurement in Education, Philadelphia, PA.*
- July 2014 Kuhfeld, M. & **Cai, L.** Model fit assessment in multilevel exploratory factor analysis. *Paper presented at the 2014 International Meeting of the Psychometric Society, Madison, WI.*
- July 2014 Monroe, S. & **Cai, L.** Multidimensional item factor analysis with semi nonparametric latent densities. *Paper presented at the 2014 International Meeting of the Psychometric Society, Madison, WI.*
- July 2014 Falk, C. F. & **Cai, L.** A flexible and efficiently estimated high-dimensional response style model. *Paper presented at the 2014 International Meeting of the Psychometric Society, Madison, WI.*
- August 2014 Harrell, L., Belin, T., & **Cai, L.** Multiple imputation and multidimensionality in large-scale educational assessments. *Paper presented at the 2014 Joint Statistical Meetings, Boston, MA.*
- April 2015 Monroe, S., **Cai, L.**, & Choi, K. Student Growth Percentiles based on MIRT: Implications of calibrated projection. *Paper presented at the 2015 Meeting of the National Council on Measurement in Education, Chicago, IL.*
- April 2015 Thomas, L., & **Cai, L.** A crossed random effect MIRT model for multiple rater data. *Paper presented at the 2015 Meeting of the National Council on Measurement in Education, Chicago, IL.*
- April 2015 Harrell, L., & **Cai, L.** Plausible value imputation from multidimensional IRT models using stochastic approximation methods. *Paper presented at the 2015 Meeting of the National Council on Measurement in Education, Chicago, IL.*
- April 2015 Kuhfeld, M., & **Cai, L.** Multilevel item factor analysis with covariates for teacher evaluation surveys. *Paper presented at the 2015 Meeting of the National Council on Measurement in Education, Chicago, IL.*
- June 2015 **Cai, L.** , & Harrell, L. The role of item response theory in assessment and evaluation studies. *Paper presented at the 13th ICSEA/Graybill Conference, Fort Collins, CO.*
- April 2016 Monroe, S., & **Cai, L.** Cluster growth percentiles: An alternative to aggregated student growth percentiles. *Paper presented at the 2015 Meeting of the National Council on Measurement in Education, Washington, DC.*

- April 2016 **Cai, L.**, Choi, K., & Kuhfeld, M. On the role of multilevel item response models in multisite evaluation studies. *Paper presented at the 2015 Meeting of the National Council on Measurement in Education, Washington, DC.*
- April 2016 Choi, K., **Cai, L.**, & Seltzer, M. Three-level latent variable hierarchical model with level-2 measurement model. *Paper presented at the 2015 Meeting of the National Council on Measurement in Education, Washington, DC.*
- April 2016 Harrell, L., & **Cai, L.** Multidimensional IRT calibration with simultaneous latent regression in large-scale survey assessments. *Paper presented at the 2015 Meeting of the National Council on Measurement in Education, Washington, DC.*
- April 2016 Kim, J., **Cai, L.**, & Choi, K. Estimating effects of reclassification of English learners using a propensity score approach. *Paper presented at the 2015 Meeting of the National Council on Measurement in Education, Washington, DC.*
- April 2016 Shin, N., Hansen, M., **Cai, L.** Comparability study of computer-based and paper-based tests for English Language Learners. *Paper presented at the 2015 Meeting of the National Council on Measurement in Education, Washington, DC.*
- April 2016 Kuhfeld, L., & **Cai, L.** School-level subscores using multilevel item factor analysis. *Paper presented at the 2015 Meeting of the National Council on Measurement in Education, Washington, DC.*
- April 2016 Bo, Y. E., Hansen, M., **Cai, L.** An alternative perspective on subscores and their value. *Paper presented at the 2015 Meeting of the National Council on Measurement in Education, Washington, DC.*

## Professional Activities

- affiliations American Educational Research Association  
National Council on Measurement in Education  
Psychometric Society
- professional service Member, AERA Division D Dissertation Award Committee (2010-2011)  
Co-Chair, AERA Division D Dissertation Award Committee (2011-2012)  
Chair, AERA Division D Dissertation Award Committee (2012-2013)  
Member, NCME Annual Awards Committee (2011-2012)  
Co-Chair, NCME Annual Awards Committee (2012-13)  
Chair, NCME Annual Awards Committee Chair (2013-14)  
Co-Chair, AERA E. F. Lindquist Award Committee (2013-14)  
Chair, AERA E. F. Lindquist Award Committee (2014-15)  
Trustee, Society of Multivariate Experimental Psychology (2013-2015)  
Member, Psychometric Society Conference Program Committee (2013-2015)  
TAC Member, UK Standards and Testing Agency (2015-2016)  
Trustee, Psychometric Society (2015-2017)
- university service Member, Education Department Academic Personnel Committee (2009-2011)  
Member, GSE&IS Faculty Executive Committee (2010-2012)  
Member, UCLA Hellman Fellowship Awards Committee (2012)

- grant review Institute of Education Sciences (Principal Member of Basic Processes Panel)  
National Institutes of Health  
National Science Foundation  
Patient-Centered Outcomes Research Institute
- ad hoc reviewer American Educational Research Association (Division D), The American Journal of Psychiatry, The American Statistician, Applied Psychological Measurement, Behavior Research Methods, Biometrics, British Journal of Mathematical and Statistical Psychology, Computational Statistics and Data Analysis, Educational Measurement: Issues and Practice, Educational and Psychological Measurement, Human Communication Research, Journal of Clinical Epidemiology, Journal of Clinical Psychiatry, Journal of Educational Measurement, Journal of Multivariate Analysis, Methodology, National Council on Measurement in Education, NeuroImage, Psychometrika, Psychological Assessment, Psychological Methods, Quality of Life Research, Society for Research on Educational Effectiveness, Sociological Methodology, Structural Equation Modeling

## Mentoring

- postdocs Taehun Lee (2010-2012; Assistant Professor, University of Oklahoma)  
Ji Seung Yang (2012-2013; Assistant Professor, University of Maryland)  
Jordan Rickles (2012-2013; Research Scientist, American Institutes for Research)  
Carl Falk (2012-2015; Assistant Professor, Michigan State University)  
Scott Monroe (2014-2015; Assistant Professor, UMass - Amherst)  
Emily Yuanchao Bo (2015-)  
Katerina Schenke (2015-)
- chair/co-chair of  
dissertation  
committees Wes Bonifay (AQM; Assistant Professor, University of Missouri)  
Seungwon Chung (AQM)  
Michelle Emmert (ELP; Assistant Dean for Student Affairs, Western University)  
Mark Hansen (AQM; Research Assistant Professor, UCLA)  
Sijia Huang (AQM)  
Megan Kuhfeld (AQM; Postdoctoral researcher, University of Texas - Austin)  
Moonsoo Lee (AQM; Research Scientist, KICE)  
Scott Monroe (AQM; Assistant Professor, UMass - Amherst)  
Larry Thomas (AQM; Research Scientist, WestEd)  
Ji Seung Yang (AQM; Assistant Professor, University of Maryland)  
Li Zhen (AQM; eMetric, LLC)

member of the-  
sis/dissertation  
committees

- Yourim Chai (Education)
- Miles Chen (Statistics)
- Ikkyu Choi (Applied Linguistics)
- Tondra De (Education)
- Lauren Harrell (Biostatistics)
- Dierdre Kerr (Education)
- James Lewis (Statistics)
- Johnny Lin (Psychology)
- Monica Lin (Education)
- Sam Nagashima (Education)
- Jordan Rickles (Education)
- Kathleen Preston (Psychology)
- Jason Sommerville (Statistics)
- Thomas Soehl (Sociology)
- Kekona Sorenson (Statistics)
- Hanna Spinosa (Education)
- Alex Sturm (Education)
- Connie Tan (Education)
- Kirsten Trickey (Psychology)
- Denise Tsai (Statistics)

## Trivia

Erdős number 5
